

MERLYN

Quality; Environmental and OH&S Policy

Merlyn Showering is committed to consistently meeting and exceeding customer and environmental and OH&S regulatory requirements including compliance obligations in relation to product quality and service in design, provision of manufacture and supply of shower doors, trays and enclosures.

Product quality is assured through commitment to excellence in product design and leveraging the capabilities and processes of our strategic partners.

A successful track record in providing world class service has been and will continue to be a cornerstone of our success.

We continuously strive to improve our business processes to deliver increased value to all our stakeholders.

Our Integrated Management system serves as the roadmap to achieving our quality, environmental and OH&S policies, and through ongoing measurement and analysis of our objectives, we strive to continuously improve its effectiveness.

Top management commits to protect the environment by ensuring that the environmental principles of prevention of pollution, sustainable resource use and climate change mitigation and adaptation, and health and safety principles of elimination of hazards, reduction of OH&S risks and consultation and participation of workers are integrated into our core business activities and promoted through our product and service supply chains. In addition it will ensure the provision of safe and healthy working conditions for the prevention of work-related injury and/or ill health.

Our Integrated Management System is certified to ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 standards and serves as the roadmap to achieving our quality, environmental and OH&S policy and through on-going measurement and analysis of our quality, environmental and OH&S objectives; we strive to continuously improve its effectiveness to achieve exemplary quality, environmental and OH&S performance.

Signed: 

Charlie Soden, Chief Executive Officer
